FOUR WINDS
FARM NURSERY
EGGERTSVILLE, N.Y.

FOUR WINDS' FLOWERING TREES

The following trees are noteworthy for the profusion and beauty of their flowers. They are, for the most part, trees of small or medium size and thus lend themselves particularly well to the garden or the shrubbery border where their flowers are especially appreciated and a heavy shade is not wanted. And in this group may be found some of the most unusually interesting and beautiful plants for use as specimens or accents in the landscape plan.

CHERRY

Prunus subhirtella pendula, WEEPING HIGAN CHERRY. 20', Very early weeping form of the lovely redbud cherry.

5 to 6 feet, 2 year heads. B & B Each.....\$4.50

CRABAPPLES

It would be hard to overstate the beauty of the crabapples, whose glorious profusion of white, pink and red flowers burst into bloom about the middle of May and whose colored fruits in the winter are attractive to birds.

Aldenhamensis, Dark pink
 Arnoldiana, ARNOLD CRAB, 12'. Single pink
 Baccata, Very fragrant white
 Bechtel's, Double pink in late May
 Coronaria, Pink, sweet scented
 Eleyi, Red leaves, pink flowers
 Floribunda, Pink buds, flowers open white
 Floribunda atrosanguinea, Brilliant carmine
 Micromalus, Bright red
 Niedzwetzkyana, Leaves red, flowers double pink
 Sargenti, Very dwarf white
 Scheideckeri, Upright growing, pink
 Thiefera, TEA CRAB OF THE ORIENT, Pink
 Zumi, Interesting habit of growth, white.

2 to 3 feet each.....\$1.00	4 to 5 feet each.....\$2.00
3 to 4 feet " 1.25	5 to 6 feet " 3.00

DOGWOOD

Cornus florida, FLOWERING DOGWOOD. 25'. Most beautiful of the native flowering trees, horizontal branches, white flowers. Clusters of red berries in the fall.

4 to 5 feet each.....\$2.00	6 to 8 feet each....\$4.00
5 to 6 feet " 3.00	8 to 10 feet, specimens, B & B each..... 6.00

Cornus florida rubra, RED FLOWERING DOGWOOD. Red flowering form of the above.

3 to 4 feet each.....\$4.00

GOLDENCHAIN TREE

Laburnum vulgare, GOLDENCHAIN TREE. 20'

5 to 6 feet, each.....\$2.50

GOLDENRAIN TREE

Koeleruteria paniculata, GOLDENRAIN TREE. 25'

5 to 6 feet, each.....\$2.00

HAWTHORNS

The Hawthorns are small trees useful as specimens, or in groups as screens and background for flowering shrubs. In autumn they are bright with gay berries.

Crataegus coccinea, THICKET HAWTHORN. White flowers, red fruit
C. cordata, WASHINGTON HAWTHORN. Holds fruit long into the winter
C. crusgalli, COCKSPUR THORN. Useful for hedges, glossy leaves, red fruit.
C. oxyacantha, ENGLISH HAWTHORN. Splendid for hedges, white flowers, red berries.

3 to 4 feet each.....	\$1.50
4 to 5 feet "	2.50
5 to 6 feet "	3.50

C. oxyacantha splendens, PAUL'S SCARLET HAWTHORN. Double scarlet flowers in May. Very attractive.

2 to 3 feet, each.....	\$.75
3 to 4 feet "	2.00
4 to 5 feet "	3.50

MAGNOLIA

Magnolia soulangeana, SAUCER MAGNOLIA. 20'. Pinkish white flowers in great profusion.

2 to 3 feet each.....	\$3.00
3 to 4 feet "	5.00

MOUNTAIN ASH

Sorbus americana, AMERICAN MOUNTAIN ASH. 25'. The best of the Mountain Ash, bright red berries in the fall.

5 to 6 feet, each.....	\$2.00
------------------------	--------

Sorbus aucuparia, EUROPEAN MOUNTAIN ASH, 30'. The most commonly planted Mountain Ash.

6 to 8 feet, each.....	\$1.50	1½ to 2 inch caliper, each.....	\$3.50
8 to 10 feet, "	1.75		

Sorbus commixta, JAPANESE MOUNTAIN ASH. 25'. Upright in habit, rare and unusual.

5 to 6 feet, each.....	\$1.75
------------------------	--------

Sorbus quercifolia, OAKLEAVED MOUNTAIN ASH. 25'. Interesting foliage, very formal in appearance.

4 to 5 feet, each.....	\$1.00
------------------------	--------

REDBUD

Cercis canadensis, AMERICAN REDBUD. 15'. Small tree which bears a profusion of little pink blossoms in early May before the leaves.

6 to 8 feet, each.....	\$2.00
------------------------	--------

SHADBUSH

Amelanchier canadensis, SHADBUSH. 25'. The first appearance of its soft white flowers through the woods is one of the definite landmarks of spring. It is one of our most attractive native plants.

4 to 5 feet, each.....	\$1.00	5 to 6 feet, each.....	\$1.50
6 to 8 feet, each.....	\$2.50	8 to 10 feet, specimens, each.....	\$6.00

FOR THE GARDENER WHO HAS EVERYTHING

Malus theifera, JAPANESE TEA CRAB. Rare and unusual. 2/3' \$1.00
 Viburnum carlesi, FRAGRANT VIBURNUM. May flowering Viburnum, dwarf clove
 scented blossoms in May. 18/24" \$1.50
 Crataegus oxyacantha splendens, PAUL'S SCARLET HAWTHORN. Double red flowers
 in early June, very handsome. 3/4' \$2.00

SPECIAL GROUP PRICE \$4.00

FOUR WINDS' SHADE TREES

There is no single contribution which adds so much to a home as the growing of a fine shade tree. The cool shade of its foliage during the hot summer months and the silhouette of the branches against the house make it perhaps the easiest way to create something that is not only beautiful but useful as well.

BEECH

Fagus sylvatica, EUROPEAN BEECH. 80'. Handsome, upright growing tree holding its leaves well into the winter.

3 to 4 feet, each.....\$3.00

Fagus sylvatica atropurpurea, COPPER BEECH. 50'. A handsome purple leaved form of the European Beech.

2 to 3 feet, each.....\$3.00

3 to 4 feet, each..... 5.00

BIRCH

Betula papyrifera, CANOE BIRCH. 60'. Attractive native white barked variety, requiring moist rich soil.

8 to 10 feet, each.....\$2.50

10 to 12 feet, each..... 3.50

Betula pendula laciniata, CUTLEAF WEEPING BIRCH. Popular weeping white Birch, not longlived.

6 to 8 feet, each.....\$1.75

8 to 10 feet, each..... 2.50

ELM

Ulmus americana, AMERICAN ELM. 80'. One of the best shade trees we have, quick growing, graceful, longlived.

8 to 10 feet, each.....\$1.50

10 to 12 feet, " 2.50

1½ to 2 inch caliper..... 3.50

2 to 2½ inch " 5.00

3 to 4 inch caliper, each.....\$10.00

5 inch spec. (\$10.00 extra B & B) 35.00

6 inch spec. (\$15.00 " " ") 50.00

Ulmus pumila, CHINESE ELM. 75'. Small leaves, dense habit of growth, makes excellent screens and hedges.

6 to 8 feet, each.....\$1.50

8 to 10 feet, " 2.00

10 to 12 feet, " 2.50

2½ to 3 inch caliper, each.....\$5.00

3 to 4 inch caliper, "10.00

GINKGO

Ginkgo biloba, MAIDENHAIR. 60'

6 to 8 feet, each.....\$4.00
 8 to 10 feet, " 6.00

HACKBERRY

Celtis oxydentalis, HACKBERRY. 50'. Quick growing native tree, excellent for difficult conditions, scarlet foliage in fall.

6 to 8 feet, each.....\$2.00

HONEYLOCUST

Gleditsia Triacanthos, HONEYLOCUST. 80'. Interesting fast growing shade tree for difficult places. Casts only a light shade and adds nitrogen to the soil, bears attractive fern-like leaves.

5 to 6 feet, each.....\$1.00 2 to 2½ inch caliper, each.....\$7.50
 6 to 8 feet, " 1.50 5 to 6 inch caliper, specimens...50.00
 1½ to 2 inch caliper.... 5.00

KATSURA

Cercidiphyllum Japonicum, KATSURA TREE. 70'. A rare shade tree, very hardy and free from pests. Young trees make excellent screen plantings.

4 to 5 feet, each.....\$1.50 8 to 10 feet, each.....\$10.00
 5 to 6 feet, "2.50

MAPLES

Acer dasycarpum, SILVER MAPLES. 70'. Popular fast growing tree, commonly used in street developments.

6 to 8 feet, each.....\$1.00 2½ to 3 inch caliper, each.....\$3.50
 8 to 10 feet, " 1.50 3 to 3½ inch caliper, " 5.00
 10 to 12 feet, " 2.50 5 to 6 inch caliper, spec.....30.00

Acer dasycarpum wieri, WIER'S CUTLEAF MAPLE. 60'. A variety of the silver Maple with cut leaves and more drooping in habit.

8 to 10 feet, each.....\$1.75

Acer ginnala, AMUR MAPLE. 12'. An interesting dwarf tree sometimes used for hedges.

5 to 6 feet, each..... \$2.00

Acer palmatum atropurpureum, REDLEAF JAPANESE MAPLE, 8'. Dwarf growing bushlike tree with red leaves remaining all season.

15 to 18 inches, each.....\$1.75 2 to 3 feet, each....\$3.50
 18 to 24 inches, "2.50

Acer platanoides, NORWAY MAPLE. 60'. The most reliable Maple for city conditions, casts very dense shade.

6 to 8 feet, each.....\$1.50 2½ to 3 inch caliper, each.....\$8.00
 8 to 10 feet, " 2.50 3½ to 4 inch " 15.00
 1½ to 2 inch caliper.... 3.50 5 to 6 inch " spec. "40.00
 2 to 2½ inch caliper..... 6.00

Acer platanoides schwedleri, SCHWEDLER MAPLE, 60'. Variety of the Norway Maple having bright purple, crimson foliage in the spring.

6 to 8 feet, each.....\$2.00	2½ to 3 inch caliper, each.....\$10.00
8 to 10 feet, " 2.75	

Acer rubrum, RED MAPLE. 60'. Attractive at every season with its early red flowers red fruits in late spring, and scarlet autumn coloring.

5 to 6 feet, each.....\$2.00	3 to 4 inch caliper, each.....\$15.00
8 to 10 feet, " 3.50	

Acer saccharum, SUGAR MAPLE. 80'. The familiar and handsome tree of our countryside. Rich yellow fall coloring.

5 to 6 feet, each.....\$1.50	5 inch caliper, specimens, each.....\$35.00
1½ to 2 inch cal..... 3.50	6 inch " " " 50.00

LINDEN

Tilia cordata, LITTLE LEAF EUROPEAN LINDEN. 50'. Fine symmetrical shade tree, good for formal effect in small areas.

6 to 8 feet, each.....\$2.50

Tilia vulgaris, EUROPEAN LINDEN. 75'. The old-fashioned Linden of European cities. Yellow fragrant flowers in June.

6 to 8 feet, each.....\$2.50

OAKS

Quercus alba, WHITE OAK. 60'. The most majestic of the Oaks. Difficult to transplant.

1½ to 2 inches, each.....\$6.50

Quercus coccinea, SCARLET OAK. 75'. Rare and unusual with beautiful autumn coloring.

1½ to 2 inches, each.....\$7.50

Quercus palustris, PIN OAK. 75'. Fast growing, graceful shade tree, very hardy.

1½ to 2 inch, each.....\$6.00	5 inch each.....\$50.00
3 to 4 inch, "25.00	6 inch "60.00

Quercus robur fastigiata, PYRAMIDAL ENGLISH OAK. 50'. A variety of the English Oak of definitely columnar growth. Excellent for planting as specimens or close to the house.

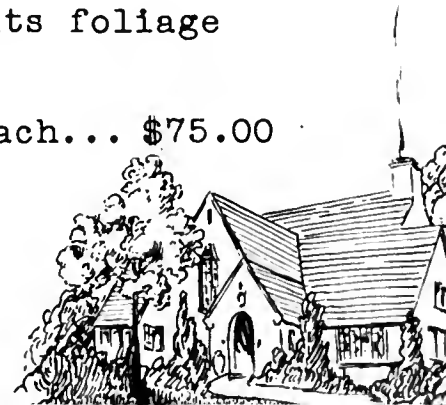

3 to 4 feet, each.....\$4.00

Quercus rubra, RED OAK. 80'. Fast growing handsome oak, recommended for lawn or avenue planting. Rich autumn coloring.

6 to 8 feet, each.....\$3.00
1½ to 2 inch caliper, " 6.00

Quercus velutina, BLACK OAK. 70'. Very similar to Red Oak. Holds its foliage well into the winter.

6 to 8 feet, each.....\$3.50	5 to 6 inch caliper, each... \$75.00
10 to 12 feet " 5.00	

PLANETREE

Platanus orientalis, EUROPEAN PLANETREE 60'. A massive wide branching tree with mottled bark. Excellent street tree.

6 to 8 feet, each.....\$2.00
 1½ to 2 inches, " 3.50

POPLAR

Populus nigra italica, LOMBARDY POPLAR. 60'. Tall slim tree useful for quick effects. Subject to blight and not longlived.

5 to 6 feet, each.....\$.35	10 to 12 feet, each.....\$	1.50
6 to 8 feet, "50	14 to 16 feet, "	4.00
8 to 10 feet, "75		

SWEETGUM

Liquidambar, SWEETGUM. 60'. Unusual native tree, with lovely red autumn coloring.

4 to 5 feet, each.....\$1.50
 5 to 6 feet, each..... 2.50

TULIPTREE

Liriodendron tulipifera, TULIPTREE. 100'. Interesting native tree, useful in natural surroundings. Lovely tuliplike flowers in the spring.

6 to 8 feet, each.....\$2.50
 2½ to 3 inch caliper, 7.50

WILLOW

Salix babylonica, WEEPING WILLOW. 30'. Most popular weeping type of willow.

6 to 8 feet, each.....\$	1.50	10 to 12 feet, each.....\$	3.00
8 to 10 feet, "	2.00		

Salix vitellina, GOLDEN WILLOW. 30'. Massive picturesque tree, golden branches. Useful as a screen.

6 to 8 feet, each.....\$	1.00	10 to 12 feet, each.....\$	3.00
8 to 10 feet, "	2.00		

YELLOW WOOD

Cladrastis lutea, YELLOW WOOD. 30'. Rare native tree, brilliant yellow autumn coloring, very hardy.

3 to 4 feet, each.....\$1.50
 1½ to 2 inch caliper, 7.50

FOUR WINDS' FRUIT TREES

Selected varieties of fruit trees for a small planting or for one or two specimens on the grounds is a problem that requires expert advice. Many varieties of apples, for instance, are not self fruitful and unless they are planted near some other variety will not set fruit, still others are not reliably hardy in this district. With this in mind, we have, with the aid of the Agricultural Experimental Station of Geneva, made the following selection of fruit trees most suitable for planting on the home grounds.

APPLES

MCINTOSH. A fine early red apple of delicious flavor, self fruitful

2 year, 4 to 5 feet, each.....\$1.00

BALDWIN. Still the best late red apple, keeps all winter. Not reliably self fruitful.

2 year, 4 to 5 feet, each.....\$1.00

NORTHERN SPY. High quality, highly flavored, late apple. Very long lived, best for ornamental effects. Self fruitful.

2 year, 4 to 5 feet, each.....\$1.00

RHODE ISLAND GREENING. The best green cooking apple. Not self fruitful.

2 year, 4 to 5 feet, each.....\$1.00

WEALTHY. Early bearer, attractive red, self fruitful.

2 year, 4 to 5 feet, each.....\$1.00

PEARS

Pears are not self-fruitful and must be planted with other varieties for best results.

BARTLETT. Large, yellow, early, excellent quality, blight resistant.

2 year, 4 to 5 feet, each.....\$1.00

SICKEL. Small russet pears of delicious quality. Blight resistant.

2 year, 4 to 5 feet, each.....\$1.00

DUCHESS. Good pollinator for other varieties.

2 year, 4 to 5 feet, each.....\$1.00

PEACHES.

Most peaches are self-fruitful.

SOUTH HAVEN. Recommended by Geneva as best for home planting, early, large yellow fruit, freestone.

1 year, 4 to 5 feet, each.....\$.75

PLUMS

TWO OR MORE PLUM TREES SHOULD BE PLANTED TOGETHER IN ORDER TO ASSURE FRUIT.

BURBANK. Red, medium size, very productive.

2 year, 4 to 5 feet, each.....\$1.00

ABUNDANCE. Red, medium size, juicy yellow flesh.

1 year, 4 to 5 feet, each.....\$1.00

ITALIAN PRUNE. Better than German. Purplish black, yellow fruit.

1 year, 4 to 5 feet, each.....\$1.00

SWEET CHERRIES

Cross pollination is essential with all varieties of sweet cherries. Two or more should always be planted together.

BLACK TARTARIAN. The best purplish black sweet cherry.

2 year, 4 to 5 feet, each.....\$1.00

YELLOW SPANISH. Light yellow with red cheek (Oxhart type)

2 year, 4 to 5 feet, each.....\$1.00

STRAWBERRIES

Strawberry plants will be supplied in 100 quantities on all orders before April 1st at \$2.00 per 100. 3" pot plants of Mastodon (everbearing) up to July 1st \$.10 each.

TRAINED OR ESPALIER FRUIT TREES

There is a decided increase in the interest of landscape architects and home owners in the use of the European type trained dwarf fruit trees. On the garden wall or against the house they have no equal for quaintness and charm.

We are prepared to supply fully trained strongly rooted specimens of apple or pear in the following forms.

U form. All varieties, 6 to 8 feet, \$12.00 each

Four-Armed Palmette Verrier, 5 to 6 feet, \$15.00 each

FOUR WINDS' FLOWERING SHRUBS

Four Winds' shrubs are freshly dug and are not sold in a dormant condition from storage. They are planted 2 to 4' apart in nursery rows so that they have a chance to develop into full naturally spreading plants.

Flowering shrubs are used as border planting to enclose an area; to screen off objectionable sights or in some cases as individual plants for the attractiveness of their flowers and fruits. With careful selection an interesting group of dwarf varieties can be used in a foundation planting to make an attractive effect and their varying habits of growth give a wide selection in eventual height from as low as 2' up to 20'.

The group that we have listed below is composed of hardy varieties, some of which are most noted for their flowers, others for their fruits which are attractive to birds and still others for their brilliant fall coloring.

ALMOND

Prunus glandulosa, PINK FLOWERING ALMOND, 10'. A very pretty, little specimen plant which bears small pink rosettes along its branches.

18 to 24 inches, each.....\$.35

2 to 3 feet, each......50

Prunus glandulosa alba, DOUBLE WHITE FLOWERING ALMOND, 10'. White flowering form of the above.

18 to 24 inches, each.....\$.50

2 to 3 feet, each......75

ALTHEA

Althea, ROSE OF SHARON. 12'. One of the loveliest of the summer blooming shrubs, familiar to all.

Althea anemoneflorus. Pink

3 to 4 feet, each.....\$.50
4 to 5 feet, "75

Althea Jeanne, d'Arc. Double white.

3 to 4 feet, each.....\$.50
4 to 5 feet, each..... .75

Althea Lady Stanley. Double pink

3 to 4 feet, each....\$.50
4 to 5 feet, each..... .75

AMORPHA

Amorpha fruticosa, INDIGOBUSH. 10'. Delicate fernlike foliage; violet flowers borne on drooping cluster.

4 to 5 feet, each.....\$.75
5 to 6 feet, each..... 1.00

ARALIA

Acanthopanax pentaphyllum FIVE-LEAVED ARALIA, 10'.. Thorny and useful as a protective hedge.

18 to 24 inches, each.....\$.40
2 to 3 feet, "50

ARONIA

Aronia arbutifolia, RED CHOKEBERRY, 8'. Small irregular shrubs, with handsome clusters of clear red berries and bright autumn color.

2 to 3 feet, each.....\$.80
3 to 4 feet, " 1.00

Aronia melanocarpa, BLACK CHOKEBERRY, 6'. Similar to the above, but somewhat dwarfer growing.

3 to 4 feet, each.....\$1.00
4 to 5 feet, " 1.50

BARBERRY

Berberis thunbergi, JAPANESE BARBERRY, 4'. The common hedging barberry, very hardy, brilliant autumn foliage with attractive berries.

15 to 18 inches, each.....\$.20 2 to 2½ feet, each.....\$.50
18 to 24 inches, "30

Berberis thunbergi atropurpurea, REDLEAF BARBERRY, 4'. Remains red all summer.

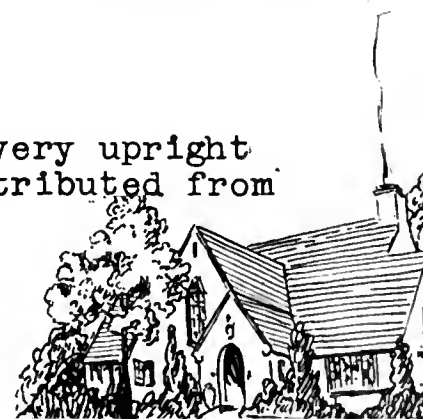

18 to 24 inches, each.....\$.50

Berberis thunbergi minor, BOX BARBERRY, 2'. Dwarf form, useful as low hedging plant for small hedges.

15 to 18 inches, each.....\$.50

Berberis thunbergi pluriflora erecta, TRUEHEDGE COLUMNBERRY. A new very upright form of Barberry with very dense growth and heavy foliage evenly distributed from the ground up. Can be grown like Boxwood. Plant Patent #110.

15 to 18 inches, each.....\$.50

BEAUTY BUSH

Kolkwitzia amabilis, BEAUTY BUSH, 8'. Comparatively new. Its graceful habit of growth and pleasant pink flowers in June recommend it as well worth planting in the shrubbery garden.

18 to 24 inches, each.....\$.60

BUDDLEIA

Buddleia Davidi, BUTTERFLY BUSH. The lovely and familiar Butterfly Bush for late summer gardens. Kills down to the ground each year and comes up stronger and bushier every spring.

Heavy 4 year old plants, each.....\$.75

Buddleia Fortune. A new patented *Buddleia*

1 year plants, each.....\$.60

Buddleia Hartwegi

3 inch pot plants, each.....\$.50
2 year field grown, each..... 1.00

Buddleia Ille de France. One of the finest of the new *Buddleias*

2 year plants, each.....\$.50

CORALBERRY

Symphoricarpos vulgaris, CORALBERRY. Red berries.

2 to 3 feet, each.....\$.35
3 to 4 feet, each..... .50

COTONEASTER

Cotoneaster acutifolia, PEKING COTONEASTER, 8'. Handsome shrub with upright slender branches, glossy leaves and black berries.

2 to 3 feet, each.....\$.60
4 to 5 feet, each.....1.00

DEUTZIA

Deutzia Gracilis, SLENDER DEUTZIA, 3'. One of the best small shrubs. In late May it is loaded with small white flowers.

15 to 18 inches, each.....\$.35

Deutzia lemoinei, LEMOINE DEUTZIA, 5'. Like a larger "gracilis" and one of the best shrubs of medium size. Showy white flowers in June.

15 to 18 inches, each.....\$.25 2 to 3 feet, each.....\$.50
18 to 24 inches, "40

Deutzia scabra, PRIDE OF ROCHESTER, 12'. A tall shrub with fine pinkish white flowers.

2 to 3 feet, each.....\$.35 4 to 5 feet, each.....\$.60
3 to 4 feet, each......50

DOGWOOD

Cornus Mas, CORNELLIAN CHERRY. 20'. The earliest yellow flowering shrub to blossom. Very handsome when trained into a small tree.

18 to 24 inches, each.....\$	75	3 to 4 feet, each.....\$	1.50
2 to 3 feet, "	1.00		

Cornus paniculata, GREY DOGWOOD, 15'. Spreads from suckers and forms a pleasing mass of greenery. White flowers in June.

3 to 4 feet, each.....\$.50
4 to 5 feet, each.....	.75

Cornus stolonifera, RED OSIER DOGWOOD, 15'. The shiny red twigs make a brilliant spot of color in the winter landscape. Especially at home along the water's edge.

3 to 4 feet, each.....\$.40	5 to 6 feet, each.....\$.75
4 to 5 feet, "	.50		

Cornus stolonifera flaviramea, GOLDENTWIG DOGWOOD, 15'. Yellow twig form of the Red Dogwood.

3 to 4 feet, each.....\$.75
--------------------------	-----

ENKIANTHUS

Enkianthus campanulatus, REDVEIN ENKIANTHUS.

2 to 3 feet, each.....\$	2.50
--------------------------	------

EUONYMUS

Euonymus alatus, WINGED EUONYMUS, 15'. Shrub or small tree which will make an interesting specimen or mass effect. Autumn coloring is a beautiful old-rose red. It is unusual for its curious ridges of corky bark.

2 to 2½ feet, each.....\$.60	3 to 4 feet, each.....\$	1.50
2½ to 3 feet, each.....	1.00		

Euonymus europaea, EUROPEAN BURNING BUSH, 20'. Treelike shrub, planted especially for its conspicuous bright pink seed pods and orange seeds.

3 to 4 feet, each.....\$.75
4 to 5 feet, each.....	1.25

FORSYTHIA

Forsythia intermedia, BORDER FORSYTHIA, 8'. Familiar golden yellow, early spring flowering shrub.

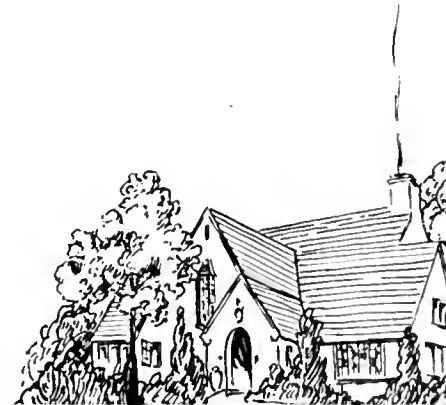

2 to 3 feet, each.....\$.35	4 to 5 feet, each.....\$.75
3 to 4 feet, each.....	.50		

Forsythia intermedia spectabilis, SHOWY FORSYTHIA. A more floriferous form of the above.

2 to 3 feet, each.....\$.35
3 to 4 feet, each.....	.50

Forsythia ovata. The hardiest of the Forsythias.

2 to 3 feet, each.....\$.75
--------------------------	-----

Forsythia suspensa, WEEPING FORSYTHIA

2 to 3 feet, each.....\$.40
3 to 4 feet, each......60

HONEYSUCKLE

Lonicera fragrantissima, FRAGRANT HONEYSUCKLE, 8'. Lovely semi-evergreen shrub, very fragrant flowers.

2 to 3 feet, each.....\$.40
3 to 4 feet, each..... .50

Lonicera korolkowi floribunda, BROAD BLUELEAF HONEYSUCKLE, 8'. Its soft graying blue foliage is attractive and distinctive. Bright pink flowers in May and June.

2 to 3 feet, each.....\$.40 4 to 5 feet, each.....\$.75
3 to 4 feet, each..... .50

LONICERA TATARICA, TATARIAN HONEYSUCKLE, 12'. This is probably the commonest form. Heavy growing, red or white flowers, red or orange fruit.

3 to 4 feet, each.....\$.50
4 to 5 feet, each......75

HYDRANGEA

Hydrangea paniculata grandiflora, P.G. HYDRANGEA, 10'. Familiar hydrangea of late summer. White flowers, turning pink.

18 to 24 inches, each.....\$.40
2 to 3 feet, each......60

JETBEAD

Rhodotypos kerriodes, JETBEAD, 6'. Large white blossoms in late June, black berries attractive to birds.

2 to 3 feet, each.....\$.35

KERRIA

Kerria japonica, KERRIA, 4'. The bright green stems add a touch of winter coloring. Yellow flowers in May.

18 to 24 inches, each.....\$.40
2 to 3 feet, each..... .60

LILACS

Syringa josikaea, HUNGARIAN LILAC, 12'. Late June blooming. Excellent for hedges.

4 to 5 feet, each.....\$1.00
5 to 6 feet, each..... 1.75

Syringa japonica, JAPANESE TREE LILAC, 20'

5 to 6 feet, each.....\$1.50 8 to 10 feet, each.....\$5.00
6 to 8 feet, " 2.50

Syringa persica, PERSIAN LILAC. A handsome wide spreading variety, free flowering, delicate lavender blossoms.

3 to 4 feet, each.....\$.35

Syringa vulgaris, COMMON LILAC, 15'.

3 to 4 foot clumps, each.....\$.75
4 to 5 foot clumps, each..... 2.50

5 to 6 foot clumps, each.....\$4.00

Syringa vulgaris, NAMED FRENCH VARIETIES

2 to 3 feet, each.....\$.75
3 to 4 feet, each.....1.00

4 to 5 feet, each.....\$1.50

MOCK ORANGE (*SYRINGA*)

Philadelphus coronarius, SWEET MOCKORANGE. Old-fashioned, sweet scented *Syringa*.

5 to 6 feet, each.....\$.75

Philadelphus virginal, VIRGINAL MOCKORANGE. Sweet scented semi-double flowers in spring and periodically throughout the summer.

2 to 3 feet, each.....\$.40
3 to 4 feet, each..... 60

4 to 5 feet, each.....\$.75

NINEBARK.

Physocarpus opulifolius, NINEBARK, 10'.

4 to 5 feet, each.....\$.40
4 to 5 feet, each..... .50

6 to 8 feet, each.....\$1.00

WINTERBERRY

Ilex verticillata, WINTERBERRY, 6'. Our native holly. Carries bright red berries all winter. Moist places.

2 to 3 feet, each.....\$.50
3 to 4 feet, each......75

FOUR WINDS' EVERGREENS

Our evergreens have been selected from only those varieties that have been proven successful in this locality. They are root pruned regularly every two years to insure compact root growth and are dug carefully with a ball of dirt and burlapped so that the roots are kept intact in their natural growing position. Evergreens may be planted at any time of year if care is exercised in the handling of them.

FOUR WINDS' VINES

BOSTON IVY (Ampelopsis veitchi). The familiar fast-growing vine for covering chimneys and walls.

2 year, #1 plants, each.....\$.50

TRUMPET VINE (Bignonia radicans). Brilliant red flowers in mid-summer. Sturdy and insect free.

3 year, #1, each.....\$.50

DUTCHMAN'S PIPE. (Aristolochia sipho). Large leaves, fast growing, excellent for screening porches.

1 year grafts, each.....\$.50

VIRGINIA CREEPER. Described under ground covers.

BITTERSWEET. Described under ground covers.

HALL'S HONEYSUCKLE. Described under ground covers.

SCARLET TRUMPET HONEYSUCKLE. Similar to Hall's, having scarlet flowers.

3 year, 4" pots, each.....\$.50

WISTERIA. Our plants are purchased from the biggest Wisteria specialist in the East and all are grafted flowering stock.

Blue---large pots, each.....\$1.50

White..large pots, each..... 1.75

Purple .large pots, each..... .75

CLEMATIS PANICULATA (Sweet Autumn Clematis). Rapid-growing vine with masses of small, very fragrant white blossoms in September.

Heavy 3 year plants, 4 inch pots, each.....\$.50

LARGE FLOWERING HYBRID CLEMATIS

The large flowering Clematis are rapidly taking the place in American gardens that is rightfully theirs. Most people are familiar only with the purple variety, Jackmanii, and do not realize that there are many other lovely shades. The following four are the hardiest, and easiest to grow.

Jackmanii--purple	3" pots	\$.75 each
Ramona-blue	3" pots	1.00 "
Henryii-large white	3" pots	1.00 "
Texensis-lovely red	3" pots	1.00 "

Note: Clematis like rich deeply prepared soil with a small amount of lime mixed with it. Plant in partial shade.

FOUR WINDS' ROSES

Realizing the unsatisfactory results that many people have with roses handled in the ordinary way, we are using a new technique known as the "Cloverset method" of handling garden roses. This is supplying vigorous plants in extra large fibre pots so that one is assured of growing plants and in addition of receiving 14 pounds of specially prepared rich rose soil with each plant.

How to Plant Four Winds' Roses

Roses should be planted in deeply prepared, well-manured soil. The location should be in full sun, well-drained and somewhat sheltered from winter winds. Simply tear off the fibre pot without disturbing the soil and plant about $\frac{1}{2}$ " deeper than the soil in the pot. Keep well watered and spray regularly.

The following list of Roses has been selected from the various Rose testing gardens and from our own experience as the most satisfactory for their color and habit. All #1 grade

AMI QUINARD. Very dark red	\$1.00 each
BETTY UPRICHARD. Delicate salmon	1.00 "
DAME EDITH HELEN. Clear pink	1.00 "
ETOILE DE HOLLANDE. Finest crimson red	1.00 "
GOLDEN DAWN. Lemon yellow	1.00 "
K.A. VICTORIA. Most perfect white.	1.00 "
LADY ALICE STANLEY. Silvery pink	1.00 "
MME. JULES BOUCHE. Lovely buds, white	
tinted pink	1.00 "
MRS. PIERRE S. DUPONT. Golden yellow	1.00 "
PRES. HOOVER. Creamy yellow, scarlet	
markings	1.00 "
RADIANCE. Fine pink	1.00 "
REV. F. PAGE ROBERTS. Golden yellow,	
stained red	1.00 "
TALISMAN. Very fragrant, variable colors	
deep rose and pale yellow	1.00 "

CLIMBING, SINGLE AND MISCELLANEOUS ROSES

AUSTRIAN COPPER (Rosa foetida bicolor). Single flowers of intense copper red, reverse of petals bright golden yellow, very choice. Each....\$1.00

DAINTY BESS (Single hybrid tea). Lovely soft rose pink, with wine colored stamens large flowers, free blooming. Each....\$1.00

GOLDEN SALMON (Polyantha). Everblooming in the true sense with small clusters of scarlet-salmon flowers blooming profusely all summer. Each....\$1.00

BLAZE (Climbing rose). Patented everblooming red, very beautiful. Each...\$1.50

DOUBLOONS (Climbing rose). Patented very hardy, saffron yellow, repeats in midsummer. Each.....\$2.00

PAULS' SCARLET (Climbing rose). Most popular red. Each....\$1.00

MARY WALLACE (Climbing rose). Large fine pink, hardy. Each....\$1.00

PRIMROSE (Climbing rose). Good yellow. Each.....\$1.00

WE ARE MEMBERS OF THE AMERICAN ROSE SOCIETY.

FOUR WINDS' GROUND COVER PLANTS

In many situations such as dense shade underneath trees and steep dry banks where it is impossible to establish good turf, it is necessary to use plants which will tolerate these conditions. Often, too, an edging and underplanting of Myrtle, Pachysandra or Euonymus is all that is necessary to put just the right finishing touch to an evergreen planting.

The following group have been thoroughly tested and found to be just the right thing for the situations under which they are listed.

DENSE SHADE

MYRTLE (Vinca Minor)--evergreen. Glossy dark green foliage all year, bright blue flowers in early summer, spreads rapidly. Plant from 12 to 18 inches apart. 4" high.

Heavy clumps, \$.15 each; \$13.00 per 100

JAPANESE SPURGE (Pachysandra). Light green foliage all year, fast spreader. Plant 4 to 6 inches apart. 6" high.

Per 100 \$8.00; Heavy plants 3" pots, \$.15 each

ENGLISH IVY (Hedera Helix). Four Winds' strain of English Ivy is grown from a specially hardy large leaved type.

Heavy 4" pots plants, \$.40 each.

FOR EDGING EVERGREEN PLANTINGS

MYRTLE, JAPANESE SPURGE AND ENGLISH IVY---as described above.

JAPANESE WINTERCREEPER (Euonymus). See broadleaf evergreens.

. DRY BANKS OR ROUGH GROUND

BITTERSWEET (Celastrus Scandens). Familiar bright orange berries in fall. Very satisfactory.

2 year #1, \$.35 each

HALL'S HONEYSUCKLE (Lonicera japonica halleana). Nearly evergreen foliage, fragrant yellow flowers, fast growing. One of the best.

4 inch pots, \$.35 each

VIRGINIA CREEPER (Ampelopsis quinquefolia). Fine native vine with brilliant red fall coloring.

3 year #1, \$.40 each

FOUR WINDS' GRASS SEED, SOIL, FERTILIZERS AND MISCELLANEOUS MATERIALS

Our policy of keeping up with the latest developments in the study of soils, fertilizers, lawn seeds, etc. through close contact with Cornell and the New York Experimental Station enables us to offer the following intelligently selected materials for the use of the home gardener.

TOP SOIL: From our own pit. Rich riverside loam

1 bushel	\$.25
1 cubic yard (small truck load)	3.00
2 cubic yards (Ordinary size truck load)	4.50
3 cubic yards (large truck load)	6.00

(22 bushels to a cubic yard)

PEAT MOSS: One of the very finest materials for soil conditioning.

Finest imported German peat--1 bale \$3.85

SORBEX. Finely granulated peat excellent for mixing with soil to topdress lawns---10 bushel bag 2.60

NATIVE PEAT. Better moisture holding capacity than dried peat, containing same fertilizer value as manure.

1 bushel	\$.50
1 cubic yard	4.50

WELL ROTTED MANURE. Difficult to obtain

1 cubic yard \$4.00

SOD: Per square yard \$.45

FOUR WINDS' SPECIAL GRASS SEED.

An excellent mixture of government inspected seed specially prepared for us.

1 pound	\$.35
5 pounds	1.50
10 pounds	2.75

SHADY MIXTURE. Specially prepared for difficult conditions. Prices same as Special mixture

AGRICO 5-10-5. Recommended by Cornell scientists to be the most useful type of fertilizer for lawns, flowers, trees, etc.

25 pounds	\$1.25
100 pounds	3.50

BONEMEAL 100 pounds \$3.50

GUARANTEE

Our plants are grown and handled with great care and when planted by us at the proper season are guaranteed to grow; although there are cases of storms injuring plants, faulty drainage conditions, lack of water through periods of drought that will cause plants to die and are conditions over which we have no control.

We are more interested in the livelihood of our plants than in just the mere making of a sale and it is our earnest desire to create a lasting goodwill so that you may be sure in buying from us that we will always do more than is actually required by such a statement as this.
